Mr. Harold Nicolson on Tallyrand by Duff Cooper

Mr. Duff Cooper is a man of culture, determination and ability. He knows that brilliance, unsupported by scholarship, is but a feeble thing; he is also aware that knowledge uninfused by imagination is a lump of dough.

Even thus in his biography of Tallyrand does Mr. Duff Cooper mingle virility with erudition, epigram with fact.

The House of Commons does not really resent intelligence, provided that its possessor does not take it seriously. Few of Mr. Duff Cooper's colleagues will be permanently estranged by the high literary capacity which his Tallyrand displays. As a portrait it is as vivid as the most exacting could require. It is also beautifully composed.

Its main quality, to my mind, is that it is written throughout from the intellectual rather than from the ethical or sensational standpoint. We have had so many biographies of late which are brilliant and amusing; it is a relief to find one that is sensible as well.

In the second place Mr. Duff Cooper treats the English language with respect. In the balance of his periods one catches an echo of the greater periods of English prose, whereas his deft, sharp phrases have all the nimbleness of modernity.

And in the third place Mr. Duff Cooper has a perfect gift of selection. He has woven his tangle material into a tissue of silken smoothness.

If biography is to be defined as "the history of an individual conceived as a work of art," then Mr. Duff Cooper's book should serve as an exhibit. It is historical in that it conveys the proportions of events; it describes an individual since it concentrates on character, and it is, without question, a delicate work of art.
